Telecare

What is Telecare?

Telecare is the name used to describe a range of devices (alarms) and systems that call for help if you, or someone you know, falls, or has a problem at home. Having telecare devices in your home will give you and your family peace of mind and reassurance.

A community alarm is an addition to your telephone. When it is activated it will get help

Telecare is a range of equipment sensors in addition to the community alarm, which will automatically activate to alert the appropriate response e.g. fire, medication.

Telecare sensors can be directed to a monitoring centre or linked to a pager for an in-house solution. Having telecare sensors means that people can get help no matter where they are within their home, giving confidence and help in living as independently as possible. Community Alarm and Telecare sensors don't replace human contact but they do provide an added assurance that if any issues should arise while alone, you can get help easily. This will give you, your family and friends confidence and reassurance too. Telecare can help people of any age who:

- **Are prone to falling**
- **Have mobility problems**
- **Are vulnerable**
- **Have epilepsy**
- **Live in supported accommodation**
- **Have a family member/carer who needs support**
- **Have memory problems because of dementia or head injury**
- **Are at risk from environmental threats such as fire, gas and floods**

Anyone can refer either themselves or someone they know for a Community Alarm and Telecare through the online

Use Google Chrome to access the following link which take you to the referral form on the website:

www.bonaccordcare.org/referrals/community-alarm-telecare/

The online form is the quickest way to refer to Bon Accord Care telecare and community alarm service. The service will need the names and contact details for 2- 3 people who are willing to be contacts.

We will set up your profile with our control centre and check your contacts are willing to attend in the event of your alarm being activated. If you don't have any contacts we have a Responder Service who can act as

a contact. If you are unable to contact this service online, please call **01224 069 800**.

The Telecare Team are available for advice on equipment and will carry out a further assessment at each visit to ensure that the equipment requested and installed is meeting your needs. Housing Options

If you decide that you cannot manage your home any longer and would rather move than adapt it, support is available to help you to consider alternative housing options.

Housing Options are the potential alternative housing choices. These could include social or private renting, home ownership, sheltered or supported housing, a housing-with-care scheme, or even a move to a care or residential home.

Who can help me choose the best housing option for me?

You may be happy working out your best housing option on your own, but if you wish to speak to someone, or need help working out what to do, the council's Housing Options service can help and an interview can be discussed by accessing the website.

How can I find out more?

Visit

<https://aberdeencity.gov.uk/Council-Services/housing/housing-online> and search under "Find a home".

Alternatively, if you feel that you need additional housing support in the form of a residential or nursing home, our care management team can advise you about the best course of action to take.

What is These Homes?

These Homes is a Digital Lettings Service, which has been designed to give you improved access to affordable rented properties across Scotland.

There are seven landlords working in partnership using this service. All of the partners will be sharing the same Housing Register and you can apply for any property which suits your needs.

By offering more choice we hope to build more settled communities and give you more say in where you are housed. These Homes is a simple and straightforward way of letting homes which is fair, open and transparent.

Register for These Homes

You must register with These Homes before you can apply for housing.

Completing the registration process will ensure that the landlords can award you any priority should you be eligible. You can also apply for priority after you have registered should your circumstances change.

Once your registration has been approved you will receive confirmation that it is live. You will then be able to apply for properties.

Stay Well and Connected

Having a sense of wellbeing is important – keeping to a routine, getting up and dressed, eating at regular times, drinking plenty of fluids and keeping a regular sleeping pattern is central to maintaining wellbeing.

It sounds so simple! But we know that these routines can slip when we are faced with difficulties in our lives. You may find that your physical and mental health starts to deteriorate, and you begin to worry about how you will find your sense of wellbeing again. There are positive steps you can take to regain a sense of wellbeing. Evidence shows there are five steps you can take to improve your sense of wellbeing. Trying these things could help you feel more positive and get the most out of life.

Good connections are important for your mental wellbeing. Making phone calls to others can help hugely. So, give your friends, neighbours, and families a call. Spread this out over the days so you speak to different people each day.

There are many groups in Aberdeen who will give you a warm welcome as well as help and advice, whether that is practical help as you learn to live with a long-term condition or a peer support group where you meet other people who use their own experiences to help each other.

Being active is not only great for your physical health and fitness, but evidence shows it can also improve your mental wellbeing. Taking part in physical activity will raise your self-esteem and when you set personal goals and challenge yourself to achieve them chemical changes in your brain happen to positively change your mood.

Walking is a no-cost, accessible way to get active. Walk Aberdeen's health walks are part of **Sport Aberdeen's Active Lifestyles Programme**. They are designed as low intensity walks for those who want to get a bit more active or are living with, or recovering from, a long-term health condition. There are a range of local health walks across the city every week.

Paths For All with the help of a large network of fantastic volunteers, Walk Aberdeen runs a range of low-level, friendly walks from buggy walks to Macmillan Friendly walks. Some of our walks have been designed with those living with dementia and their families in mind and many of our walk leaders and walkers are dementia aware.

LifeCurve™

The **LifeCurve™** is a model of ageing discovered through research at the University of Newcastle and made available through a practical tool created by ADL Smartcare Limited. A model of ageing is just a way of thinking about how we experience getting older.

The LifeCurve™ is based on research which says there is a set order in which we lose the ability to do everyday activities as we age. The LifeCurve™ is not based on your actual age. Because how we age is affected by many things including our overall health, our early years' experience, our living and social circumstances, and our socio-economic status.

So you could be 90, fit and healthy and not be on the LifeCurve™ or be near the top. Equally you might be in your late 50s or 60s and be nearer the middle of the LifeCurve™. The important thing is that wherever you are on the LifeCurve™ you can change your position and it is never too late to start.

Have you heard of the lifecurve app? It is an app for your phone or tablet/computer which helps you quickly discover how you are ageing. You answer 19 quick questions, and the app will then give you some daily/weekly tasks to help you make improvements.

Take Notice

It can be easy to rush through life without stopping and fail to take the time to really look at what's around you.

Try paying more attention to the present moment and to your own thoughts and feelings, and look at the world around you.

It really can improve your mental wellbeing. Some people call this awareness "mindfulness". Mindfulness can help us enjoy life more and understand ourselves better. You can take steps to develop it in your own life.

My Power of Attorney

Information for everyone - what is a Power of Attorney?

A Power of Attorney is a legal document giving someone else (your Attorney) authority to act or make decisions on your behalf. You choose the person(s) you want to act as your Attorney and what powers you want the Attorney to have. A Power of Attorney is there to make sure that your financial affairs and personal welfare can still be dealt with/protected if things change and you can't do it for yourself.

Who is a Power of Attorney for?

Everyone over the age of 16 and able to act on their own behalf can apply for Power of Attorney. Accidents or illnesses can happen at any age and the sooner a Power of Attorney is completed, the better. You should register your Power of Attorney with The Office of the Public Guardian as soon as you can. A solicitor can safely hold onto the deed for you until you are unable to make decisions for yourself and it is asked for by your Attorney.

What does losing capacity mean?

If you lose capacity, it means that you are no longer able to make decisions about how to look after your own financial and personal affairs, perhaps due to illness eg dementia/stroke etc.

Incapacity is determined by a lawyer or doctor and is assessed against specific criteria. The Adults with Incapacity (Scotland) Act 2000 sets out certain situations in which you could be deemed to lack capacity

- **Incapable of acting/making on decisions Incapable of communicating decisions Incapable of understanding decisions Incapable of retaining the memory of decisions in relation to any matter due to mental disorder Incapable of communicating due to**

How do I start the process for Power of Attorney?

Start by having a conversation with someone you trust to take action on your behalf should the need arise. Make sure the person is happy to be your Attorney and that they understand your wishes.

How much will it cost?

Check eligibility for Legal Aid with Scottish Legal Aid Board (SLAB). SLAB helps those on low and modest incomes gain access to the legal system. If you are not eligible for legal aid, visit mypowerofattorney.org.uk for local information or shop around for a solicitor to draw up a Power of Attorney document. Legal fees depend on each case and costs. The solicitor will be able to provide an estimate before work is carried out on your behalf.

Adult Social Care

At some point in our lives people may need more help with everyday living because of an illness, a disability, because we are getting older, or because we are caring for someone.

Adult Social Care can assess your situation by using what are called Eligibility Criteria to find out if you are eligible for adult care services. Social Work has a set amount of money for community care services. To ensure that citizens in the greatest need or most at risk are prioritised, the council has taken a policy decision that only those citizens with needs that have been assessed at Emergency/ Urgent or High levels will be eligible for a service. The eligibility criteria apply to all citizens who currently receive a service and anyone who requests an adult care service.

People with needs that do not reach the threshold will receive information and advice, or direction to alternative provision. If you feel you are unlikely to fit into the priority categories, but have special circumstances we should consider, then you should refer yourself for an assessment.

To find out more about the eligibility criteria and if you already have a Social Worker, Care Manager or Community Care Coordinator, you should contact them directly. Otherwise or for more information please contact The Duty Social Work Team.

Adult Support and Protection

What is Adult, Support and Protection?

You have the right to be safe. There is a law that tells the Council to make sure you are safe if people are worried about you.

The Council might need to become involved if they believe three things about your situation:

- **They believe you find it difficult to look after your safety, health, rights or other interests; and**
- **They believe you are at risk of harm; and**
- **They believe you are more likely to be harmed because of a disability, mental illness or physical illness.**

If you or someone who cares about you are worried about your safety, please contact Advocacy Service Aberdeen to discuss the situation that is causing you concern.
