

Host a Session at ACHSCP's Conference Week

We're trying to encourage us all to '*Share, Discover, Grow*' within our Partnership.

For this year's ACHSCP conference, we are hosting a whole week's worth of events in October and want to hear from colleagues who would like an opportunity to host an event. Events could be workshops, presentations, activities, sessions – any type of event! You'll receive the support of the project team and promotion for your event. We're looking for events which fall into one of 3 themes:

<i>Share</i>	Good practice, networking, collaboration, 'show & tell'
<i>Discover</i>	Innovation, opportunities, improvement, transformation
<i>Grow</i>	Skills development, personal development, health & wellbeing activities

Application Process
