

## **Aberdeen City GP Practice Registration Availability**

If you live in Aberdeen City and do not currently have a GP Practice, then this information will help you to identify where you can register with a GP Practice in the City.

We appreciate this can be confusing and frustrating for patients who are not registered with a GP Practice and who are trying to see where they can register.

### **Why am I finding it difficult to register with a GP Practice in Aberdeen City?**

Practices in the City are experiencing an extremely high demand for their services and are struggling to cope due to a number of factors including an increase in the population, a decrease in the number of clinical staff due to recruitment issues across Grampian and an increase in patients requiring more complex care.

### **I am new to Aberdeen City and am not registered with a GP Practice, what should I do?**

If you require to register with a GP Practice in Aberdeen City, to help assist you, we have created a list below of which GP Practices have open lists and are accepting new patient registrations and those who have closed lists or may not be accepting new patient registrations right now.

### **I am already registered with a GP Practice in Aberdeen City and have not moved address. Can I change Practice?**

No, not at this time. This is to help support our GP Practices and ensure those people that do not currently have a practice, can get one.

We will continue to minimise patients re-registering at another Practice who have not moved out of the area their current Practice covers. This helps to reduce the high number of registrations Practices are receiving on a weekly basis. This will be reviewed in Spring 2024 and updates will be provided as and when they are available.

### **I have recently moved address and am now out with my GP Practice's boundary. Can I register elsewhere?**

Yes, you will need to register at a new Practice. Please look at the table below and check which Practices cover your new postcode, if they are accepting new patient registrations and then contact them directly to register.

### **I have moved address but my new address is still within my current Practice's boundary. Can I change Practice?**

No, if your Practice is still within the postcode boundary of your new address, you will need to remain registered unless there are exceptional circumstances such as a specific medical need, or a complete breakdown in relationships with all the clinical practice staff. This is to help support our GP Practices and ensure those people that do not currently have a practice, can get one.

### I am still struggling to get registered, what else can I do?

You can also contact Practitioner Services by emailing them at [nss.psd-gmsaberdeen@nhs.scot](mailto:nss.psd-gmsaberdeen@nhs.scot) or phoning them on 01224 358447 and leave a message. Practitioner Services can provide advice and support for patient registrations and medical records.

The information in the table below is updated regularly and subject to change. Contact **links** to each **Practice website** can be found by **clicking on the Practice names below**. **For postcodes with (partial), please check with the Practice directly if they cover your individual address.**
